#### Section 2: Course assessments and assignments

# 1. Teaching Practice - PebblePad

#### **Lesson Observations**

Trainees are expected to have at least one formal observation by the end of Term 1. This will be carried out as a **joint learning observation (JLO)** between subject mentor and university tutor. Your trainee will arrange this with you.

The role of informal feedback is highly valued and trainees are encouraged to capture this as notes their **PebblePad Professional Discussions** log. This includes, informal discussions on planning and teaching, mentor meetings and discussions with placement colleagues.

## 2. Module Teaching Learning and Assessment - This module has 1 assignment submitted in 2 parts

#### Assignment A

# Part 1 Annotated Sequence of Delivered Lessons

Trainees plan and deliver a sequence of 4-6 lessons for this task. The sequence of lesson plans should be annotated after delivery to show the following

- a. 2 examples of subject pedagogy and justification of your choice
- b. 2 examples of formative assessment and justification of your choice
- c. 2 references to evaluative notes on the sequence of your plans and the impact of the sequence
- d. 2 examples of inclusive practice and reference to the principles of inclusive practice supporting your choices
- e. 2 examples of where you have adapted/tweaked the sequence and why you adapted and what the impact on learners was

#### Part 2 A written critical commentary of the delivery of the learning sequence

Trainees should use their annotations to critically evaluate practice and comment on emerging themes. You can support your mentee by observing their practice, providing feedback and engaging in critical debate about their practice.

### Course dates and events
